

Analyte Specific Reagents (ASRs)*

- Expedite your LDT development and prep.

Bringing you efficient solutions. Create laboratory developed tests (LDTs) using Hologic analyte specific reagents (ASRs).*

Bioinformatics Expertise

- Save time and labor using ASRs aligned with circulating microbial and viral strains as recommended by the College of American Pathologists (CAP).
- Stay a step ahead with our continual screening for sequence polymorphisms.

Quality Primers and Probe Design

- Control your LDT workflow with standardized concentrations in easy-to-use aliquots.
- Produced in line with Good Manufacturing Practices (GMP).†
